

PROTECT-IT™

by

Testimonial

PepsiCo Australia & New Zealand

Below is a testimonial from Edwin Lee of Pepsico in Australia who shares his experiences using Protect-it Rack guards in his distribution centre.

"Our Dandenong Distribution Centre is a busy, high volume environment that services the Victorian and Tasmanian market places. Over the years we'd experienced high levels of racking upright damage and were incurring rectification costs of \$40, 000 plus per year. The installation of the Protect-IT guards has reduced the damage by over 50% and also provided great awareness for our reach truck operators. Its been a great safety and cost initiative for the site"

Ed Lee, Distribution Centre Manager - VIC/TAS
