

A revolution in safety signage.

Effective safety signage is a vital part of workplace safety. We offer a unique and convenient new signage system to warn your employees and visitors of potential hazards in the workplace. Our range of all-weather indoor/outdoor sign holders provides an innovative solution to safety signage requirements, offering significant convenience, flexibility and cost advantages over traditional solutions.

SIMPLE TO USE

- Design and print your own sign on any printer.
- Simply insert the sign in any one of our holders.
- Sign holders are water-resistant and UV protected.

MULTIPLE SIZES AND CONFIGURATIONS

- A5 and A6 landscape sizes for face mounting with screws or double sided tape.
- A4 double-sided sign holder for use in landscape or portrait orientation with versatile mounting options.
- A4 accessories include a powerful magnetic bracket (shown top) for fixing to metal beams, posts and machinery and a multi-purpose stand (shown bottom) for free-standing applications.

UNLIMITED FREE ACCESS TO A VARIETY OF SIGNS

A range of standard signs is available on our website for free download. Looking for a different sign? Contact us to discuss your requirements.

Our product range and sign database is continually expanding so please check our website regularly.
